

Revised 03/13/00

CPT—CODES APPROVED FOR USE BY OPTOMETRISTS
UNDER CURRENT SCOPE OF PRACTICE
MISSOURI STATE BOARD OF OPTOMETRY

CODES APPROVES FOR:

*DPA CERTIFIED OPTOMETRISTS

**TPA CERTIFIED OPTOMETRISTS

- | | |
|------------|--|
| **11200 | Removal Of Skin Tags, Multiple Fibrocutaneous Tags, Any Area: Up To And Including 15 Lesions (Topical Anesthesia Only) |
| **15822-55 | Post-Op Management Blepharoplasty |
| **65205 | Removal of Foreign Body, External Eye: Conjunctival Superficial |
| **65210 | Conjunctival embedded (includes concretions), subconjunctival, or scleral nonperforating |
| **65220 | Corneal, without slit lamp |
| **65222 | Corneal, with slit lamp |
| **65275 | Repair laceration: cornea, non-perforating, with or without removal of foreign body |
| **65286 | Repair of laceration: application of tissue glue, wounds of cornea and/or sclera |
| **65420-55 | Post-op management for pterygium without graft |
| **65430 | Scraping of cornea, diagnostic, for smear and/or culture |
| **65435 | Removal of corneal epithelium, with or without chemocauterization (abrasion, curettage) |
| **65436 | With application of chelating agent (e.g., EDTA) |
| **65850-55 | Post-op trabeculotomy (AB externo) surgery management |
| **65600 | Multiple punctures of anterior cornea (e.g., for corneal erosion, tatoo) |

- **65760-55 Post-op management keratomileusis
[This code is also being used for PRK and LASIK]
- **65771-55 Post-op management radial keratotomy
- **65850-55 Post-op management trabeculotomy (ab externo)
- **65855-55 Post-op management laser trabeculoplasty
- **66170-55 Post-op management trabeculotomy (ab externo in absence of
previous surgery)
- **66761-55 Post-op management laser iridotomy/iridectomy
- **66762-55 Post-op management iridoplasty by photocoagulation
- **66821-55 Post-op management discission of secondary membranous
cataract (opacified posterior lens capsule and/or anterior hyaloid):
laser sugery (e.g., YAG laser)
- **66983-55 Post-op management intracapsular cataract extraction with
insertion of intraocuar lens prosthesis
- **66984-55 Post-op management extracapsular cataract extraction with
insertion of intraocular lens prosthesis
- 66999 Unlisted procedure, anterior segment of the eye
(including but not limited to:)
- 66999-55 Post-op management of refractive surgery
- 67820 Correction of trichiasis: epilation, by forceps only
- **67825 Epilation (e.g., by electrosurgery or cryotherapy)
- **67901-55 Post-op management for repair of blepharoptosis
- **67938 Removal of embedded foreign body, eyelids
- **67999 Unlisted procedure, eyelids
- **68020 Incision of conjunctiva, drainage of cyst
- **68040 Expression of conjuctival follicles (e.g., for trachoma)
- **68399 Unlisted procedure, conjunctiva

**68761	Closure of the lacrimal punctum by plug, each
*68801	Dilation of lacrimal punctum, with or without irrigation
*68820	Probing of nasolacrimal duct, with or without irrigation
*68830	Collagen plug insertion, each
*68840	Probing of lacrimal canaliculi, with or without irrigation
*68899	Unlisted procedure, lacrimal system
*76511	Ophthalmic ultrasound, echography, diagnostic: A-scan only, with amplitude quantification
*76512	Contact B-scan (with or without simultaneous A-scan)
*76513	Immersion (water bath) B-scan
*76516	Ophthalmic biometry by ultrasound echography, A-scan
*76519	With intraocular lens calculation
*76529	Ophthalmic ultrasonic foreign body localization
*76999	Unlisted ultrasound procedure
82948	Glucose: blood, stick test
87015	Concentration (anytype), for parasites, ova, or tubercle bacillus (TB, AFB)
87040	Culture, bacterial, definitive: blood (includes anaerobic screen)
87070	Any other source
87072	Culture or direct bacterial identification method, each organism by commercial kit, any source except urine
87075	Culture, bacterial, any source, anaerobic (isolation)
87076	Definitive identification, each anaerobic organism, including gas chromatography
87081	Culture, bacterial, screening only, for single organisms

87082	Culture, presumptive, pathogenic, organisms, screening only, by commercial kit (specify type): for single organisms
87083	Multiple organisms
87084	With colony estimation from density chart
87085	With colony count
87101	Culture, fungi, isolation (with or without presumptive identification); skin
87102	Other source (except blood)
87106	Culture fungi, definitive identification of each fungus (use in addition to codes 87101,87102, or 87103 when appropriate)
87110	Culture, chlamydia
87164	Dark field examination, any source (e.g., penile, vaginal, oral, skin); includes specimen collection
87181	Sensitivity studies antibiotic; agar diffusion method, per antibiotic
87184	Disk method, per plate (12 or fewer disks)
87205	Smear, primary source, with interpretation, routine stain for bacteria, fungi, or azar, herpes
87206	Fluorescent and/or acid fast stain for bacteris, fungi, or cell types
87207	Special stain for inclusion bodies or intracellular parasites (e.g., malaria, kala, azar, herpes)
87999	Unlisted microbiology procedure
90901	Biofeedback training by any modality
92002	Ophthalmological services: medical examination and evaluation with initiation or continuation of siagnostic and treatment program; intermediate, new patient
92004	Comprehensive, new patient, one or more visits

92012	Ophthalmological services; medical examination and evaluation, with initiation or continuation of diagnostic and treatment program; intermediate, established patient
92014	Comprehensive, established patient, one or more visits
92015	Determination of refractive state
*92020	Gonioscopy with medical diagnostic evaluation (separate procedure)
92060	Ensimotor examination with multiple measurements of ocular deviation and medical evaluation (e.g., restrictive or oaretic muscle with diplopia) (separate procedure)
92065	Orthoptic and/or pleoptic training with continuing medical direction and evaluation
92070	Fitting of contact lens for treatment of disease, including supply of lens
92081	Visual field examination, unilateral or bilateral, with medical diagnostic evaluation; limited examination (e.g., tangent screen, autoplots, ARC perimeter, or single stimulus level automated test such as octopus 3 or 7 equivalent)
92082	Intermediate examination (e.g., at least 2 isopters on goldman perimeter, or semiquantitative, automated suprathreshold screening program, humphrey suprathreshold automatic diagnostic test, octopus program 33)
92083	Extended examination (e.g., golman visual fields with at least 3 isopters) plotted and static determination within the central 30, or quantitative aumotated threshold perimetry, octopus program G-1, 32 or 42, humphrey visual field analyzer full threshold programs 30-2, 24-2, 30/60-2 (gross visual field testing) (e.g., confortation testing) is part of general ophthalmological services and is not reported separatly)
*92100	Serial tonometry (separate procedure) with multiple measurements of intraocular pressure over an extended time period with medical diagnostic evaluation, same day (e.g., diurnal curve or medical treatment or acute elevation of intraocular pressure)
*92120	Tonography with medical diagnostic evaluation, recording indentation tonometer method or perilimbal suction method

*92130	Tonography with water provocation
**92135	Scanning computerized ophthalmic imaging (e.g., scanning laser with interpretation and report, unilateral)
*92140	Provocative tests for glaucoma, with medical diagnostic evaluation, without tonography
*92225	Ophthalmoscopy, extended as for retinal detachment (may include use of contact lens, drawing or sketch, and/or fundus biomicroscopy), with medical diagnostic evaluation; initial
*92226	Subsequent
**92230	Fluorescein Angioscopy with medical diagnostic evaluation. Optometrists may provide a medical diagnosis and take photographs, but the Missouri State Board does not authorize optometrists to perform intravenous introduction of fluorescein.
**92235	Fluorescein angiography (includes multiframe imaging) with medical diagnostic evaluation Optometrists may provide a medical diagnosis and photographs, but the Missouri State Board does not authorize optometrists to preform intravenous introduction of fluorescein.
**92240	Indocyanine-green angiography (include multiframe imaging) with interpretation and report
92250	With fundus photgraphy
*92260	With ophthalmodynamometry
*92265	Oculoelectromyography, one or more extraocular muscles, or both eyes, with medical diagnostic evaluation
*92270	Electro-oculography, with medical diagnostic evaluation
*92275	Electroretinography, with medical diagnostic evaluation
*92280	Visually evoked potential (response) study, with medical diagnostic evaluation
92283	Color vision examination, extended, e.g., anomaloscope or equivalent

92284	Dark adaptation examination, with medical diagnostic evaluation
92285	External ocular photography with medical diagnostic evaluation for documentation of medical progress (e.g., close-up photography, slit lamp photography, goniphotography, stereo-photography)
92286	Special anterior segment photography with medical diagnostic evaluation; with specular endothelial microscopy and cell count
**92287	With fluorescein angiography
92310	Prescription of optical and physical characteristics of fitting of contact lens, with medical supervision of adaptation; corneal lens, both eyes, except aphakia
92311	Corneal lens for aphakia, one eye
92312	Corneal lens for aphakia, both eyes
92313	Corneoscleral lens
92314	Prescription of optical and physical characteristics of contact lens, with medical supervision of adaptation and direction of fitting by independent technician; corneal lens, both eyes, except for aphakia
92315	Corneal lens for aphakia, one eye
92316	Corneal lens for aphakia, both eyes
92317	Corneoscleral lens
92325	Modification of contact lens (separate procedure) with medical supervision of adaptation
92326	Replacement of contact lens
92330	Prescription of ocular prosthesis and direction of fitting and supply of ocular prosthesis (artificial eye), with medical supervision of adaptation
92335	Prescription of ocular prosthesis and direction of fitting and supply by independent technician, with medical supervision of adaptation
92340	Fitting of spectacles, except for aphakia, monofocal
92341	Bifocal

92342	Multifocal, other than bifocal
92352	Fitting of spectacle prosthesis for aphakia; monofocal
92353	Multifocal
92354	Fitting of spectacle mounted low vision aid; single element system
92355	Telescopic or other compound lens system
92358	Prosthesis services for aphakia, temporary (disposable or loan, including material)
92370	Repair and refitting spectacles; except for aphakia
92371	Spectacle prosthesis for aphakia
92390	Supply of spectacles, except prosthesis for aphakia and low vision aids
92391	Supply of contact lens, except prosthesis for aphakia
92392	Supply of low vision aids (a low vision aid is any lens device used to aid or improve visual function in a person whose vision cannot be normalized by conventional spectacle correction. Includes reading additions up to 4D)
92393	Supply of ocular prosthesis (artificial eye)
92395	Supply of permanent prosthesis for aphakia; spectacles
92396	Contact lens
92499	Unlisted ophthalmological service or procedure
92531	Spontaneous nystagmus, including gaze
92532	Position nystagmus
92533	Caloric vestibular test, each irrigation (binaural, bithermal stimulation constitutes four tests)
92534	Optokinetic nystagmus

92541	Spontaneous nystagmus test, including gaze and fixation nystagmus, with recording
92542	Positional nystagmus test, minimum of 4 positions, with recording
92544	Optokinetic nystagmus test, bidirectional, foveal or peripheral stimulation, with recording
95060	Ophthalmic mucus membrane tests
95881	Developmental testing
95882	Cognitive testing and others
*95930	Visual evoked potential (VEP) testing central nervous system, checkerboard or flash
*95933	Orbicularis oculi (blink) reflex, by electrodiagnostic testing
97112	Therapeutic procedure, each 15 minutes; neuromuscular reeducation of movement balance, coordination, kinesthetic sense, posture, and proprioception
97139	Therapeutic procedure, each 15 minutes, unlisted therapeutic procedure (specify)
99000	Handling and/or conveyance of specimen for transfer from the physician's office to a laboratory
99001	Handling and/or conveyance of a specimen for transfer from the patient in other than a physician's office to a laboratory (distance may be indicated)
99002	Handling, conveyance, and/or any other service in connection with the implementation of an order involving devices (e.g., designing, fitting, packaging, handling, delivery or mail) when devices such as orthotics, protectives, prosthetics are fabricated by an outside laboratory or shop but which items have been designed, and are to be fitted and adjusted by the attending physician
99050	Services requested after office hours in addition to basic service
99052	Services requested between 10:00 P.M. and 8:00 A.M. in addition to basic service

99054	Services requested on Sundays and holidays in addition to basic service
99056	Services provided at request of patient in a location other than physician's office which are normally provided in the office
99058	Office services provided on an emergency basis
99070	Supplies and materials (except spectacles), provided by the physician over and above those usually included with the office visit or other services rendered (list drugs, trays, supplies, or materials provided)
99071	Educational supplies, such as books, tapes, and pamphlets, provided by the physician for the patient's education at cost to physician
99075	Medical testimony
99078	Physician educational services rendered to patients in a group setting (e.g., prenatal, obesity, or diabetic instruction)
99080	Special reports such as insurance forms, or the review of medical data to clarify a patient's status—more than the information conveyed in the usual medical communications or standard reporting form
99082	Unusual travel (e.g., transportation and escort of patient)
99090	Analysis of information data stored in computers (e.g., ECG's blood pressures, hematologic data)
99100	Unlisted special service report
99178	Administration and medical interpretation of developmental tests (in relationship to visual system only)
99201	Office or other outpatient visit for the evaluation and management of a new patient, which requires these three key components: A problem focused history; A problem focused examination; and Straightforward medical decision making
99202	Office or other outpatient visit for the evaluation and management of a new patient which requires these three key components: An expanded problem focused history;

An expanded problem focused examination; and
Straightforward medical decision making

- 99203 Office or other outpatient visit for the evaluation and management of a new patient, which requires these three key components:
A detailed history;
A detailed examination; and
Medical decision making of low complexity
- 99204 Office or other outpatient visit for the evaluation and management of a new patient, which requires these three key components:
A comprehensive history;
A comprehensive examination; and
A medical decision making of moderate complexity
- 99205 Office or outpatient visit for the evaluation and management of a new patient, which requires these three key components:
A comprehensive history;
A comprehensive examination; and
Medical decision making of high complexity
- 99211 Office or other outpatient visit for the evaluation and management of an established patient, that may not require the presence of a physician. Usually the presenting problem(s) are minimal. Typically, 5 minutes are spent performing or supervising these services.
- 99212 Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components:
A problem focused history;
A problem focused examination;
Straightforward medical decision making
- 99213 Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components:
An expanded problem focused history;
An expanded problem focused examination;
Medical decision making of low complexity
- 99214 Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three components:
A detailed history;
A detailed examination;
Medical decision making of moderate complexity

- 99215 Office or their outpatient visit for the evaluation and management of an established patient, which requires at least two of these three components:
A comprehensive history;
A comprehensive examination;
Medical decision making of high complexity
- 99221 Initial hospital care, per day, for the evaluation and management of a patient which requires these three components:
A detailed or comprehensive history
A detailed or comprehensive examination; and
Medical decision-making that is straightforward or of low complexity
- 99231 Subsequent hospital care, per day, for the evaluation and management of a patient which requires at least two of these three components:
A problem focused interval history;
A problem focused examination;
Medical decision making that is straightforward or of low complexity
- 99232 Subsequent hospital care, per day, for the evaluation and management of a patient which requires at least two of these three components:
An expanded problem focused interval history;
An expanded problem focused examination;
Medical decision making of moderate complexity
- 99233 Subsequent hospital care, per day, for the evaluation and management of a patient, which requires at least two of these three key components:
A detailed interval history;
A detailed examination;
Medical decision making of high complexity
- 99241 Office consultation for a new or established patient which requires these three components:
A problem focused history
A problem focused examination; and
Straightforward medical decision making
- 99242 Office consultation for a new or established patient, which requires these three components:
An expanded problem focused history;
An expanded problem focused examination; and

Straightforward medical decision making

- 99243 Office consultation for a new or established patient, requires three key components:
 A detailed history;
 A detailed examination; and
 Medical decision making of low complexity
- 99244 Office consultation for a new or established patient, which requires these three key components:
 A comprehensive history;
 A comprehensive examination; and
 Medical decision making of moderate complexity
- 99245 Office consultation for a new or established patient, which requires these three key components:
 A comprehensive history;
 A comprehensive examination; and
 Medical decision making of high complexity
- 99251 Initial inpatient consultation for a new or established patient, which requires these three key components:
 A problem focused history
 A problem focused examination; and
 Straightforward decision making
- 99252 Initial inpatient consultation for a new or established patient, which requires these three key components:
 An expanded problem focused history;
 A expanded problem focused examination; and
 Straightforward medical decision making
- 99253 Initial in patient consultation for a new or established patient, which requires these three key components:
 A detailed history;
 A detailed examination; and
 Medical decision making of low complexity
- 99254 Initial inpatient consultation for new or established patient, which requires three key components:
 A comprehensive history;
 A comprehensive examination; and
 Medical decision making of moderate complexity
- 99255 Initial inpatient consultation for a new or established patient, which requires these three key components:

A comprehensive history;
A comprehensive examination; and
Medical decision making of high complexity

- 99261 Follow-up inpatient consultation for an established patient, which requires at least two of these three key components:
A problem focused interval history;
A problem focused examination; and
Medical decision making that is straightforward or of low complexity
- 99262 Follow-up inpatient consultation for an established patient which requires at least two of these three key components:
An expanded problem focused interval history;
An expanded problem focused examination;
Medical decision making of moderate complexity
- 99263 Follow-up inpatient consultation for an established patient which requires at least two of these three key components:
A detailed interval history;
A detailed examination;
Medical decision making of high complexity
- 99271 Confirmatory consultation for a new or established patient, which requires these three key components:
A problem focused history
A problem focused examination, and
Straightforward medical decision making
- 99272 Confirmatory consultation for new or established patient, which requires these three key components:
An expanded problem focused history
An expanded problem focused expanded examination; and
Straightforward medical decision making
- 99273 Confirmatory consultation for a new or established patient, which requires these three key components:
A detailed history
A detailed examination; and
Medical decision making of low complexity
- 99274 Confirmatory consultation for a patient, which requires these three key components:
A comprehensive history;
A comprehensive examination; and
Medical decision making of moderate complexity

- 99275 Confirmatory consultation for a patient, which requires these three components:
 A comprehensive history;
 A comprehensive examination; and
 Medical decision making of high complexity
- 99281 Emergency department visit for the evaluation and management of a patient, which requires these three key components:
 A problem focused history
 A problem focused examination; and
 Straightforward medical decision making
- 99282 Emergency department visit for the evaluation and management of a patient, which requires these three key components:
 An expanded problem focused history;
 An expanded problem focused examination; and
 Medical decision making of low capacity
- 99283 Emergency department visit for the evaluation and management of a patient, which require these three key components:
 An expanded problem focused history;
 An expanded problem focused examination; and
 Medical decision making of low to moderate complexity
- 99284 Emergency department visit for the evaluation and management of a patient, which requires these three key components
 A detailed history;
 A detailed examination; and
 Medical decision making of moderate complexity
- 99285 Emergency department visit for the evaluation and management of a patient, which requires these three key components within the restraints imposed by the urgency of the patients clinical condition and mental status:
 A comprehensive history;
 A comprehensive examination; and
 Medical decision making of high complexity
- 99302 Evaluation and management of a new or established patient involving a nursing facility assessment which requires these three key components:
 A detailed interval history;
 A comprehensive examination; and
 Medical decision making of moderate to high complexity

- 99311 Subsequent nursing facility care, per day, for the evaluation and management of a new or established patient, which requires at least two of these three key components:
- A problem focused interval history;
 - A problem focused examination;
 - Medical decision making that is straightforward or of low complexity
- 99312 Subsequent nursing facility care, per day, for the evaluation and management of a new or established patient which requires at least two of these three components:
- An expanded problem focused interval history;
 - An expanded problem focused examination;
 - Medical decision making of moderate complexity
- 99313 Subsequent nursing facility care, per day, for the evaluation and management of a new or established patient, which requires at least two of these three key components:
- A detailed interval history;
 - A detailed examination;
 - Medical decision making of moderate to high complexity
- 99321 Domiciliary or rest home visit for the evaluation and management of a new patient which requires these three key components:
- A problem focused history
 - A problem focused examination; and
 - Medical decision making that is straightforward or of low complexity
- 99322 Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these three key components:
- An expanded problem focused history;
 - An expanded problem focused examination; and
 - Medical decision making of moderate complexity
- 99323 Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these three components:
- A detailed history;
 - A detailed examination; and
 - Medical decision making of high complexity
- 99331 Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least two of these three key components:
- A problem focused interval history;

A problem focused examination;
Medical decision making that is straightforward or of low complexity

99332 Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least two of the three key components:

An expanded problem focused interval history;
An expanded problem focused examination;
Medical decision making of moderate complexity

99333 Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least two of these three key components:

A detailed interval history;
A detailed examination;
Medical decision making of high complexity

99341 Home visit for the evaluation and management of a new patient, which requires these three components:

An expanded problem focused history
A problem focused examination; and
Medical decision that is straightforward and of low complexity

99342 Home visit for the evaluation and management of a new patient, which requires these three components:

An expanded problem focused history;
An expanded problem focused examination; and
Medical decision making of moderate complexity

99343 Home visit for the evaluation and management of a new patient, which requires these three key components:

A detailed history;
A detailed examination; and
Medical decision making of high complexity

99351 Home visit for the evaluation and management of an established patient, which requires at least two of these three key components:

A problem focused interval history;
A problem focused examination;
Medical decision making that is straightforward or of low complexity

99352 Home visit for the evaluation and management of an established patient, which requires at least two of these three components:

An expanded problem focused interval history;
An expanded problem focused examination;
Medical decision making of moderate complexity

- 99353 Home visit for the evaluation and management of an established patient, which requires at least two of these three key components:
A detailed interval history
A detailed examination
Medical decision making of high complexity
- 99354 Prolonged physician service in the office or other outpatient setting required direct (face-to-face) patient contact beyond the usual service (e.g., prolonged care and treatment of an acute asthmatic patient in an outpatient setting); first hour
- 99355 Prolonged physician service in the office or other outpatient setting requiring direct (face-to-face) patient contact beyond the usual service (e.g., prolonged care and treatment of an acute asthmatic patient in an outpatient setting); each additional 30 minutes
- 99356 Prolonged physician service in the inpatient setting, requiring direct (face-to-face) patient contact beyond the usual service (e.g., maternal fetal monitoring, prolonged care of an acutely ill patient) first hour
- 99357 Prolonged physician service in the inpatient setting, requiring direct (face-to-face) patient contact beyond the usual service (e.g., maternal fetal monitoring for high risk delivery or other physiological monitoring, prolonged care of an acutely ill in-patient); each additional 30 minutes.
- 99361 Medical conference by a physician with interdisciplinary team of health professionals or representatives of community agencies to coordinate activities of patient care (patient not present); approximately 30 minutes
- 99362 Approximately 60 minutes
- 99371 Telephone call by a physician to patient or for consultation or medical management with other health care professionals (e.g., nurses, therapists, social workers, nutritionists, physicians, pharmacists). Simple or brief (e.g., to report on tests and/or laboratory results, to clarify or alter previous instructions to integrate new information from other health professionals into the medical treatment plan, or to adjust therapy)

- 99372 Intermediate (e.g., to provide advice to an established patient on a new problem to initiate therapy that can be handled by telephone, to discuss test results in detail, to coordinate medical management of new problems in an established patient, to discuss and evaluate new information and details, or to initiate new plan of care.)
- 99373 Complex or lengthy (e.g., lengthy counseling session with anxious or distraught patient, detailed or prolonged discussion with family members regarding seriously ill patient, lengthy communication necessary to coordinate complex services of several different aspects of the total patient care plan.)
